Northvale Heart Centre
12 Fenwick Lane, Corrington CR9 2LP · Coronary Care Unit

Name: WARD, Graeme
DOB: 26/05/1948
Hospital no: HN-RW46238
Address: 231 Robert Station, Lake Reecehaven S4 0FT
Trial ID: DEMO01-102-0003

DEATH SUMMARY

Graeme Ward, a 77-year-old man, was admitted on 17/05/2026 with an acute anterior myocardial infarction (troponin T 2950 ng/L). He was enrolled in the DEMO01 study (Zelvoran or placebo).

On 18/05/2026 he developed cardiogenic shock requiring inotropic support. TIMI flow grade 0 was seen in the left anterior descending artery.

On 19/05/2026 at 03:40 he had a ventricular fibrillation arrest. Resuscitation was unsuccessful and death was confirmed at 04:15. His wife, Brenda Ward, was present.

General practitioner: Dr Helen Marsh, Corrington Medical Practice.

Conclusion

Cause of death: 1a cardiogenic shock, 1b acute anterior myocardial infarction. The death was reported to the coroner (reference 2026/00417).

Dr Rupert Okafor, Consultant Cardiologist
